ADJUDICATIONS STAFF

DOCKET NUMBER
PETITION FILE # 50-79
(67 FR 66588)

Attention: Rulemakings and Adjudications Staff

Subject: Petition for Rulemaking filed by Lawrence T. Christian
(Docket No. PRM-50-79)

Ms. Annette Vietta-Cook
Secretary
US Nuclear Regulatory Commission
Washington, D.C. 20555-0001

Dear Ms. Annette Vietta-Cook,

I support the petition filed to include nursery schools and day care centers in federally required Radiological Emergency Readiness Planning. I encourage adoption of these proposed rules.

Sincerely,

Mitchell J. Maricque

Template = SECY-067

SECY-02

5-8-03 through

Day Care & Nursery Schools Have No Evacuation Planning Requirements.

Currently day care centers and nursery schools are not federally required to have ANY radiological emergency evacuation plans.

Without new NRC requirements designed to insure all day care centers and nursery schools are properly planned for, children will continue to be left without any:

- designated relocation centers
- designated transportation
- approved-child-safety seats
- rosters of emergency bus drivers
- planned educational materials
- notification of state of readiness
- inclusion in radiological emergency preparedness exercises, etc.

Until the U.S. Nuclear Regulatory Commission creates new regulations requiring emergency planning for day care centers and nursery schools none will ever exist.

These oversights clearly fail to meet FEMA requirements for offsite plans, and preparedness to adequately protect the public health and safety.

So please help us by signing this petition supporting our efforts to fix this dangerous oversight.

We the undersigned hereby support this petition to the U.S. Nuclear Regulatory Commission seeking new Nuclear Regulatory Commission requirements to insure all day care centers and nursery schools are properly protected in the event of a nuclear incident or terrorist attack at a nuclear power station.
